

5/7/08

After suffering from lower back pain for several years I decided it was time to seek out chiropractic care. I placed a phone call to Tuck Chiropractic in Galax and was able to set up an appointment the same day. My first visit I could tell that I had chosen the chiropractor, everyone in the office was so friendly and made me feel welcome.

Dr. Bennett went over my x-rays with me and explained in a manner that I could understand. I started a routine therapy program with regular adjustment, which are almost complete. After a few short visits I was pain free and amazed by the results.

My back pain is gone and my balance and overall state of health are much improved. I intend to continue preventative care at this office once a month when I am finished with routine care. So in closing I would like to thank Dr. Bennett, Judy and Teresa for their warm friendly smiles and their professionalism.
