

Dr. Bennett,

This is to commend you and your staff, Judy and Teresa on a job well done. I came to you over two months ago in tremendous pain. You took the time and care, even sacrificing you days off to help me with my pain. How many doctors would do that?

Your staff, Judy and Teresa, make it possible for everyone to be seen and to fit with everyone's busy, busy schedule. They are the sweetest and by far the most caring of anywhere that I have experienced. As for you, you have made it possible for me to be able to experience life with a whole new outlook that I can be "pain free".

Gratefully,
Lisa Anderson
